IT IS ORDERED AND RESOLVED: That the installation of the coils manufactured and marketed by Jacobs Electronics, Inc., 500 North Baird Street, Midland, Texas 79701 has been found not to reduce the effectiveness of the applicable vehicle pollution control system and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the following vehicle applications:

<u>Device</u>	<u>Application</u>	<u>Remarks</u>
Energy Coil & Ultra Coil	1998 and older vehicles	Not applicable on vehicles with distributorless multi-coil ignitions, GM vehicles with HEI systems, or import vehicles equipped with internal coil distributors.

Motorcycle Ultra-Coil High Output	1998 and older Harley-Davidson motorcycles	
Ultra Street Team for Motorcycles	1998 and older Harley-Davidson motorcycles	Consist of the Energy-Pak LED, Ultra-Coil High Output, and spark plug wires

This exemption is issued based on information supplied by the device manufacturer which demonstrates that the ignition system components met the requirements of compliance criteria for ignition system components as specified under the "Procedures for Exemption of Add-On and Modified Parts" and therefore, will not increase emissions.

This Executive Order is valid provided that the installation instructions for the Coils will not recommend tuning the vehicles to specifications different from those of the vehicle's manufacturer.

Changes made to the design or operating conditions of the Coils, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.
