

State of California  
AIR RESOURCES BOARD

EXECUTIVE ORDER D-236-8  
Relating to Exemptions Under Section 27156  
of the Vehicle Code

AUTOMOTIVE PERFORMANCE SYSTEMS, INC.  
NEUSPEED P-FLO AIR FILTER KIT

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-45-5;

IT IS ORDERED AND RESOLVED: That the installation of the Neuspeed P-FLO Air Filter Kit manufactured by Automotive Performance Systems, Inc. of 3300 Corte Malpaso, Camarillo, CA 93012, has been found not to reduce the effectiveness of the applicable vehicle pollution control system and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the following Volkswagen applications:

- 1993/94 Volkswagens equipped with a 2.8 liter engine.
- 1988-92 Golf & Jettas<sup>Corado</sup> equipped with a 1.8 liter engine.
- 1993-95 Cabriolet, Jetta, & Golf equipped with a 2.0 liter engine.

This Executive Order is valid provided that installation instructions for this air filter will not recommend tuning the vehicle to specifications different from those submitted by vehicle manufacturer.

Changes made to the design or operating conditions of the kit, as exempt by the Air Resources Board, which adversely affect the performance of a vehicle's pollution control system shall invalidate this Executive Order.

Marketing of this kit using any identification other than that shown in this Executive Order or marketing of this kit for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board. Exemption of the kit shall not be construed as exemption to sell, offer for sale, or advertise any component of the kit as an individual device.

This Executive Order does not constitute any opinion as to the effect the use of this kit may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on an engineering evaluation which shows that emissions are not affected during the Cold-Start CVS-75 Federal Test Procedure. However, the Air Resources Board finds that reasonable grounds exist to believe that use of the Neuspeed P-Flo Air Filter Kit may adversely affect emissions of motor vehicles when operating under conditions

outside the parameters of the previously prescribed test procedures. Accordingly, the Air Resources Board reserves the right to conduct additional emission tests, in the future, as such tests are developed, that will more adequately measure emissions from all cycle phases. If such test results demonstrate that the Neuspeed P-Flo Air Filter Kit adversely affects emissions during off-cycle conditions (defined as those conditions which are beyond the parameters of the Cold-Start CVS-75 Federal Test Procedure), this Executive Order shall be effectively rescinded as of the date the test results are validated. Further, if such test results or other evidence provides the Air Resources Board with reason to suspect that the Neuspeed P-Flo Air Filter Kit will affect the durability of the emission control, Automotive Performance Systems, Inc. shall be required to submit durability data to show that the durability of the vehicle emissions control system is not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

In addition to the foregoing, the Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF AUTOMOTIVE PERFORMANCE SYSTEMS' NEUSPEED P-FLO AIR FILTER KIT.

No claim of any kind, such as "Approved by the Air Resources Board" may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after ten day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination after hearing that grounds for revocation exist.

Executive Order Number D-236-4 is hereby superseded and no longer of any force or effect.

Executed at El Monte, California, this 22<sup>nd</sup> day of February 1996.
