

**State of California  
AIR RESOURCES BOARD**

**EXECUTIVE ORDER D-280-97**

Relating to Exemptions under Section 27156 and 38391  
of the Vehicle Code

AirTek, Inc. (d.b.a. CATCO)  
"Series 58000 Three-way Catalytic Converter"

WHEREAS, Vehicle Code (VC) Sections 27156 and 38395, and Title 13, California Code of Regulations (13 CCR) Section 2222(h), authorize the Air Resources Board and its Executive Officer to exempt new aftermarket catalytic converters from the prohibitions of VC Sections 27156 and 38391.

WHEREAS, AirTek, Inc. (AirTek) of 4410 W. 37<sup>th</sup> Avenue, Hobart, Indiana 46342, has applied to the Air Resources Board for exemption from the prohibitions in VC Sections 27156 and 38391 to market its new aftermarket Series 58000 three-way catalytic converter (TWC) for installation on selected 1975 through 1995 model year non-on-board diagnostic II (non-OBD II) passenger cars equipped with a single or dual exhaust system and one catalytic converter per exhaust bank (PC-1). The catalytic converter will be sold as a universal or direct fit system. Series 58000 TWC uses the following substrate geometries: 1) one round substrate with a diameter of 3.66 inches and length of 6.00 inches and a volume of 63.12 cubic inches, 2) two round substrates with a diameter of 3.66 inches and length of 3.00 inches and a volume of 63.12 cubic inches, 3) one oval substrate with a major axis of 5.70 inches and minor axis of 3.20 inches and length of 4.00 inches and a volume of 61.77 cubic inches, or 4) two oval substrates with a major axis of 5.70 inches and minor axis of 3.20 inches and length of 2.00 inches and a volume of 61.77 cubic inches.

WHEREAS, pursuant to the authority vested in the Executive Officer by Health and Safety Code Section (HSC) 39515 and in the Chief, Mobile Source Operations Division by HSC Section 39516 and Executive Order G-02-003, the Air Resources Board finds that the above aftermarket catalytic converter complies with the VC Sections 27156 and 38395 and 13 CCR, Section 2222(h). Emission performance of the catalytic converter was based on durability bench-aging by Southwest Research Institute using the Air Resources Board-modified RAT-A bench-aging cycle for 100 hours, as specified in Appendix A to the "California Evaluation Procedures for New Aftermarket Catalytic Converters" as adopted on October 25, 2007 (CA Catalyst Evaluation Procedures). The catalytic converter was previously bench-aged for 100 hours for an on-board diagnostic II (OBD II) truck application as Series 912000 TWC.

WHEREAS, emissions tests conducted at Olson-Ecologic Engine Testing Laboratories, Fullerton, California, using a 2001 3.8L Chevrolet Camaro, test group 1GMXV03.8043, certified to the Passenger Car (PC) category and Low Emission Vehicle I (LEV I) Low Emission Vehicle (LEV) emission standards (PC, LEV I LEV), showed that the vehicle met the applicable emission standards with Series 58000 TWC (1 unit) installed. OBD II compatibility tests performed on the same test vehicle showed that Series 58000 TWC did not affect the vehicle's ability to perform OBD II system monitoring. The following are the test results in grams per mile:

	<u>NMOG</u>	<u>CO</u>	<u>NOx</u>
100K Standards	0.090	4.2	0.3
Series 58000 Test 1	0.074	1.0	0.1
Series 58000 Test 2	0.076	0.8	0.1

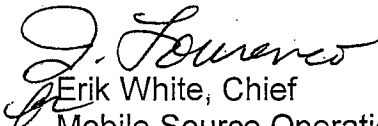

THEREFORE, IT IS HEREBY RESOLVED that AirTek's 58000 TWC is exempted from the prohibitions in VC Sections 27156 and 38391 for installation on 1995 and older model year non-OBD II passenger cars with one catalytic converter per exhaust bank (PC-1) subject to the following conditions:

1. No changes are permitted to the catalytic converter as described in the application for exemption. Any changes to the catalytic converter or any of their components, and other factors addressed in this order must be evaluated and approved by the Air Resources Board prior to marketing in California.
2. Marketing of the catalytic converter using identifications other than those shown in the exemption application, and in this Executive Order, or marketing of the catalytic converter for application other than the ones shown in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board. Exemption of this product shall not be construed as an exemption to sell, offer for sale, or advertise any components of the catalytic converter as individual devices.
3. Any oral or written references to this Executive Order or its content by AirTek, its principals, agents, employees, distributors, dealers, or other representatives must include the disclaimer that the Executive Order or the exemption it provides is not an endorsement or approval of any emission reduction claims for the catalytic converter and is only a finding that the catalytic converter is exempt from the prohibitions of VC Sections 27156 and 38391.
4. AirTek's installation instructions for the new catalytic converter must conform to requirements in Section (h) of the "California Evaluation Procedures for New Aftermarket Catalytic Converters," as adopted October 25, 2007.
5. Installation of the catalytic converter shall not cause the relocation of an oxygen sensor. Oxygen sensors must be installed in the same location, position and orientation as prescribed in the original equipment manufacturer's configurations.
6. Upon installation, the catalytic converter must carry a manufacturer's warranty for five years or 50,000 miles as prescribed in Section (f)(2) of the CA Catalyst Evaluation Procedures.
7. AirTek and its vendors may not advertise the new aftermarket catalytic converter as "high flow or easy flow" catalytic converter or use any phrase that could make them appear to perform better than the original equipment manufacturer catalytic converters.

8. Any marketing arrangement of the new aftermarket catalytic converter by a third party, which involves the use of packaging identification different from the ones described in this Executive Order, must be approved by the Air Resources Board prior to shipment.
9. AirTek, its associates, vendors, other businesses, and individuals associated with AirTek, may not sell or supply new aftermarket catalytic converter substrates to a third party to be assembled in a different facility and marketed under this Executive Order without approval from the Air Resources Board.
10. AirTek shall comply with the quality control procedures and reporting requirements in Section (f)(5) of the CA Catalyst Evaluation Procedures.
11. Quality control reports must be submitted on a quarterly basis and warranty information reports must be submitted on a semi-annual basis.
12. AirTek must provide a permanent label or stamp as specified under Section (f)(1) of the CA Catalyst Evaluation Procedures.
13. AirTek's vehicle application catalog must conform with the requirements as specified under Section (f)(4) of the CA Catalyst Evaluation Procedures.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a 30-day written notice of intention to revoke it, during which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within 30 days of receipt of the request, and the order may not be revoked until a determination is made, after the hearing, that grounds for revocation exist.

Executed at El Monte, California, this 18<sup>th</sup> day of July 2013.

  
Erik White, Chief  
Mobile Source Operations Division
