AIR RESOURCES BOARD

EXECUTIVE ORDER D-368-6
Relating to Exemptions Under Section 27156
of the Vehicle Code

CUSTOM CHROME, INC.
REV TECH HIGH INTENSITY ELECTRONIC IGNITION

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-45-9;

IT IS ORDERED AND RESOLVED: That the installation of the Rev Tech High Intensity Electronic Ignition, manufactured and marketed by Custom Chrome, Inc., 1610 Jacqueline Court, Morgan Hill, California 95037 has been found not to reduce the effectiveness of the applicable vehicle pollution control system and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for all 1970 to 1997 Harley Davidson motorcycles.

The Rev Tech High Intensity Electronic Ignition is designed to replace the original equipment manufacturer's (OEM) ignition points or electronic ignition with a Hall cell magnetic module. The Rev Tech High Intensity Electronic Ignition retains the spark on the exhaust stroke like the OEM configuration and is capable of operating two spark plugs per cylinder. Part no. 59-754 is designed to fit only 1980 to 1997 model year Harley Davidsons and part no. 59-751 is designed to fit 1970 to 1979 model year Harley Davidsons. No changes are recommended to the OEM tune-up specifications.

Changes made to the design or operating conditions of the Rev Tech High Intensity Electronic Ignition, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

Marketing of the Rev Tech High Intensity Electronic Ignition using any identification other than that shown in this Executive Order or marketing of the Rev Tech High Intensity Electronic Ignition for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board. Exemption of the Rev Tech High Intensity Electronic Ignition shall not be construed as exemption to sell, offer for sale, or advertise any component of the kit as an individual device.

This Executive Order does not constitute any opinion as to the effect the use of the Rev Tech High Intensity Electronic Ignition may have on any warranty either expressed or implied by the vehicle manufacturer.

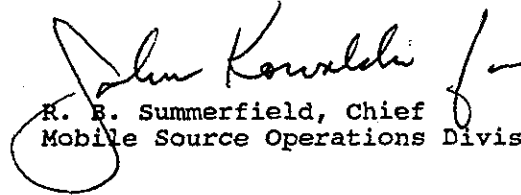

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF CUSTOM CHROME, INC.'S REV TECH HIGH INTENSITY ELECTRONIC IGNITION.

No claim of any kind, such as "Approved by the Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination after hearing that grounds for revocation exist.

Executive Order D-368-1 dated June 6, 1995, is hereby superseded and no longer of any force or effect.

Executed at El Monte, California, this 4th day of March 1997.

R. E. Summerfield, Chief
Mobile Source Operations Division
