

State of California
AIR RESOURCES BOARD

EXECUTIVE ORDER D-377-9
Relating to Exemptions Under Section 27156
of the Vehicle Code

AUTOMOTIVE SYSTEMS GROUP, INC.
HIPERFLOW INDUCTION SYSTEM

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code;
and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the
Health and Safety Code and Executive Order G-45-9;

IT IS ORDERED AND RESOLVED: That the installation of the Hiperflow Induction system
manufactured by Automotive Systems Group, Inc. of 6644 San Fernando Road, Glendale,
California, 91201, has been found not to reduce the effectiveness of the applicable vehicle pollution
control system and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code
for the following vehicles:

Applicable Vehicles:

<u>Part Number</u>	<u>Model Years</u>	<u>Vehicle Models</u>	<u>Displacement</u>
H03040	1985-1987	Honda Civic Si, CRX Si	1.5L
H03041	1988-1991	Honda Civic and CRX	1.6L
H03042	1992-1995	Honda Civic DX, EX, LX, Si	1.6L
H03042	1992-1995	Honda Civic del Sol S & Si	1.6L
H03043	1986-1989	Acura Integra, all models	1.6L
H03044	1990-1993	Acura Integra RS, LS	1.8L
H03045	1994-1997	Acura Integra RS and LS	1.8L
H03046	1995-1997	Acura Integra GSR	1.8L
HO3124	1996-1997	Honda Civic EX, HX	1.6L
H03170	1992-1993	Acura Integra GSR	1.6L
H03176	1994	Acura Integra GSR	1.6L
HO3182	1992-1996	Honda Prelude S, Si, VTEC	2.2L
HO3195	1996-1997	Honda Civic DX, LX	1.6L
HO3199	1994-1997	Honda Accord DX, LX, EX	2.2L
HO3223	1990-1993	Honda Accord DX, LX, EX	2.2L
HO3224	1997	Honda Prelude VTEC	2.2L

This Executive Order is valid provided that the installation instructions for the Hiperflow Induction
system will not recommend tuning the vehicle to specifications different from those submitted by
Automotive Systems Group, Inc.

Changes made to the design or operating conditions of the Hiperflow Induction system, as exempt
by the Air Resources Board, which adversely affect the performance of a vehicle's pollution control
system shall invalidate this executive order.

Marketing of the Hiperflow Induction system using any identification other than that shown in this Executive Order or marketing of the Hiperflow Induction system for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board. Exemption of the Hiperflow Induction system shall not be construed as exemption to sell, offer for sale, or advertise any component of the kit as an individual device.

This Executive Order does not constitute any opinion as to the effect that the use of the Hiperflow Induction system may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on emissions tests conducted in accordance with Cold-Start CVS-75 Federal Test Procedure. However, the Air Resources Board finds that reasonable grounds exist to believe that use of the Hiperflow Induction system may adversely affect emissions of motor vehicles when operating under conditions outside the parameters of the previously prescribed test procedures. Accordingly, the Air Resources Board reserves the right to conduct additional emission tests, in the future, as such tests are developed, that will more adequately measure emissions from all cycle phases. If such test results demonstrate that the Hiperflow Induction system adversely affects emissions during off-cycle conditions (defined as those conditions which are beyond the parameters of the Cold-Start CVS-75 Federal Test Procedure), this Executive Order shall be effectively rescinded as of the date the test results are validated. Further, if such test results or other evidence provides the Air Resources Board with reason to suspect that the Hiperflow Induction system will affect the durability of the emission control, Automotive Systems Group, Inc. shall be required to submit durability data to show that the durability of the vehicle emissions control system is not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

In addition to the foregoing, the Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF AUTOMOTIVE SYSTEMS GROUP, INC.'S HIPERFLOW INDUCTION SYSTEM.

No claim of any kind, such as "Approved by the Air Resources Board" may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after ten day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination after hearing that grounds for revocation exist.
