

EXECUTIVE ORDER D-798-20

Relating to Exemptions under California Vehicle Code Sections 27156 and 38391

AP Emissions Technologies, LLC (d.b.a. AP Exhaust, Catco Catalytic Converter,
and Eastern Catalytic Converter)
“Series 6770000 Three-Way Catalytic Converter”

WHEREAS, California Vehicle Code (CVC) Sections 27156 and 38395 and Title 13, California Code of Regulations (13 CCR) Section 2222(h) authorize the California Air Resources Board (CARB) and its Executive Officer to exempt new aftermarket catalytic converters from the prohibitions in CVC Sections 27156 and 38391.

WHEREAS, AP Emissions Technologies, LLC (AP) of 300 Dixie Trail, Goldsboro, North Carolina 27530 has applied to CARB for exemption from the prohibitions in CVC Sections 27156 and 38391 to market its new aftermarket Series 6770000 three-way catalytic converter (TWC) for installation on 2000 through 2015 model-year passenger cars equipped with on-board diagnostic II systems as specified in Appendix D-798-20 and incorporated herein. Series 6770000 TWC will be sold as a universal or direct fit system and will be used on single catalytic converter applications.

WHEREAS, pursuant to the authority vested in the Executive Officer by Health and Safety Code (HSC) Section 39515 and in the Chief of the Emissions Certification and Compliance Division by HSC Section 39516 and Executive Order G-19-095, CARB finds that the above aftermarket catalytic converter complies with CVC Sections 27156 and 38395 and 13 CCR Section 2222(h). Emission performance of the catalytic converter was based on durability bench-aging by ProCat Testing using CARB-modified Rapid Aging Test-A bench-aging cycle for 75 hours as specified in Appendix A to the “California Evaluation Procedures for New Aftermarket Catalytic Converters,” as amended September 28, 2017 (Converter Evaluation Procedures).

WHEREAS, emission tests conducted by AP using a 2013 model-year 1.8-liter Honda Civic LX (LEV2 SULEV PC, DHNXV01.82C2) with Series 6770000 TWC showed that the vehicle meets the applicable emission standards.

WHEREAS, evaluation of Series 6770000 TWC using the procedures and criteria specified in Section (e)(5)(B) of the Converter Evaluation Procedures showed that the catalytic converter meets the requirements for proper malfunction indicator light illumination demonstration.

THEREFORE, IT IS HEREBY RESOLVED that AP’s Series 6770000 TWC is exempted from the prohibitions in CVC Sections 27156 and 38391 for installation on the approved vehicle applications specified in Appendix D-798-20 subject to the following conditions:

1. No changes are permitted to the catalytic converter as described in the application for exemption. Any changes to the catalytic converter or any of its components and other factors addressed in this Executive Order must be evaluated and approved by CARB prior to marketing in California.

2. Marketing of the catalytic converter using identifications other than those shown in the exemption application, and in this Executive Order, or marketing of the catalytic converter for applications other than the ones shown in this Executive Order shall be prohibited unless prior approval is obtained from CARB. Exemption of this product shall not be construed as an exemption to sell, offer for sale, or advertise any components of the catalytic converter as individual devices.
3. Any oral or written references to this Executive Order or its content by AP, its principals, agents, employees, distributors, dealers, or other representatives must include the disclaimer that the Executive Order or the exemption it provides is not an endorsement or approval of any emission reduction claims for the catalytic converter and is only finding that the catalytic converter is exempt from the prohibitions in CVC Sections 27156 and 38391.
4. AP's installation instructions for the new catalytic converter must conform to requirements in Section (h) of the Converter Evaluation Procedures.
5. Installation of the catalytic converter shall not cause the relocation of any oxygen sensors. Oxygen sensors must be installed in the same location, position, and orientation as prescribed in the original equipment manufacturer's configurations.
6. Upon installation, the catalytic converter must carry a manufacturer's warranty for five (5) years or 50,000 miles as prescribed in Section (f)(2) of the Converter Evaluation Procedures.
7. AP and its vendors may not advertise the new aftermarket catalytic converter as a "high flow" or "easy flow" catalytic converter or use any phrase that could make it appear to perform better than the original equipment manufacturer catalytic converter.
8. Any marketing arrangement of the new aftermarket catalytic converter by a third party, which involves the use of packaging identification different from the ones described in this Executive Order, must be approved by CARB prior to shipment.
9. AP, its associates, vendors, other businesses, and individuals associated with AP may not sell or supply new aftermarket catalytic converter substrates to a third party to be assembled in a different facility and marketed under this Executive Order without approval from CARB.
10. AP shall comply with the quality control procedures and reporting requirements in Section (f)(5) of the Converter Evaluation Procedures.
11. Quality control reports must be submitted on a quarterly basis and warranty information reports on a semi-annual basis.
12. AP must provide a permanent label or stamp as specified under Section (f)(1) of the Converter Evaluation Procedures.
13. AP's vehicle application catalog must conform to the requirements specified under Section (f)(4) of the Converter Evaluation Procedures.

14. Catalytic converters exempted under this Executive Order may not be installed on a vehicle unless the vehicle is beyond the coverage of the original equipment manufacturer catalytic converter warranty period.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a 30-day written notice of intention to revoke it, during which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within 30 days of receipt of the request, and the order may not be revoked until a determination is made, after the hearing, that grounds for revocation exists.

Executed on this 6th day of March 2025.

Robin U. Lang, Chief
Emissions Certification and Compliance Division
